INDEX TO VOLUME IX.

A

Absorption of Light in Space, 94.

Erolite, Fall of, 99.

Algol, The Problem of, *F. Schlesinger*, 11.

Astronomical Notes, 29, 93, 141, 193, 259, 322, 365, 401, 452, 504.

Astronomy, The Evolution of, *F. A. McDiarmid*, 371.

Astronomy, The Influence of, *J. W. Lethaby*, 344.

Aurora, Audibility of, 35, 100, 199, 268.

Aurora, Daylight, 331.

Aurora, Forecasting an, 368.

Aurora, Is There a Morning, *A. F. Hunter*, 121.

Aurora, Störmer's Investigations on, *C. A. Chant*, 486.

Auroræ, Observations of, C. A. Chant, 456, 508.

Auroral Displays in Ontario, 328.

B

Black Lightning, *A. Steadworthy*, 173.

Black Lightning, 264.

British Columbia, Geodetic Survey of, *G. H. McCallum*, 302.

C

Canada-Alaska Boundary Survey, *Noel J. Ogilvie*, 290.

Cannon, Annie J., Henry Draper Memorial, 203.

Cannon, J. B., The Orbit of ξ Andromedæ, 158; The Orbit of Boss, 3323, 480; The Orbit of μ Persei, 388; The Orbit of 136 Tauri, 151.

Chambers, G. F., Death of, 370.

Chant, C. A., Comet News, 91, 139, 449; Death of Lady Huggins, 149; Notes and Queries, 31, 96, 145, 197, 262, 326, 368, 404, 456, 508; Review of Publications, 82, 439; Stormer's Investigations on the Aurora, 486.

Collier, H. B., How I Sculptured the Moon, 1.

Collins, J. R., Summer Constellations, 235.

Comet, 238, 325, 406.

Comet News, 91, 139, 449.

Comets, Origin of, 403.

D

Denning, W. F., Claims of Meteoric Astronomy, 57; Great Meteoric Stream of February 9, 1913, 287; Large Meteors in June, 61; Rotation Period of Hollow and Great Red Spot on Jupiter, 333; Rotation Periods of Planets, 285.

Diurnal Changes in Magnetic Declination at Agincourt, 1902-1912, *W. E. W. Jackson*, 349.

Double Stars, Recent Work on, R. Jonckheere, 504.

Dyson, F. W., Measurements of the Distances of the Stars, 407.

E

Earth, The Age of the, 321.

Earthquake of February 18, 1911, *Otto Klotz*, 428.

Earthquake Records at Toronto and Victoria, B.C., *J. Y.*, 27, 89, 137, 191, 258, 318, 360, 396, 446, 502.

Earthquake Stations, *Otto Klotz*, 26.

Easter Day, Date of, 404.

Eclipse, August, 1914, The Total Solar, 195.

Eclipse, Solar, Moving Picture of August, 1914, 95.

Electrical Phenomena on Mt. Hamilton, 147.

Epicentres, Location of, for 1914, *Otto Klotz*, 216.

Errors in Longitude, Azimuth and Latitude Determinations, III., *F. A. McDiarmid*, 459.

Evolution of Astronomy, The, *F. A. McDiarmid*, 371.

G

Geodetic Survey of British Columbia, *G. H. McCallum*, 302.

Geodetic Survey, United States Coast and, 267.

Gnomonic Star Atlas, *F. K. Young*, 7.

Gravitation, 143.

Gravity Stations 1914, *Otto Klotz*, 176.

Great Meteoric Stream of February 9, 1913, *W. F. Denning*, 287.

H

Harper, W. E., Note on *d* Tauri, 79; Review of Publication, 130; The
